

Tenure-Track Faculty Position in Electrical and Computer Engineering

Mississippi State University invites applications for tenure-track faculty positions in Electrical and Computer Engineering in Power/High Voltage, Smart Grid, Signal/Image Processing, and other areas. All ranks will be considered with an endowed chair/Professorship available to qualified candidates. An earned doctorate in electrical engineering, computer engineering, or related field and a clear potential for gaining national prominence through funded research and teaching are required. Please visit www.ece.msstate.edu/employment for additional information. Screening will begin January 9, 2012. Application will be accepted until the position is filled. MSU is an AA/EOE employer. Underrepresented minorities and women are strongly encouraged to apply.

Mississippi State University is a comprehensive land-grant institution with over 20,000 students and awards more than 3,000 degrees each year. The National Science Foundation currently ranks the department as 32nd among the more than 300 U.S. ECE departments in external research expenditures. The university is located in Starkville, a vibrant community located in northeast Mississippi.
