

**New York Institute of Technology (NYIT) School of Engineering and Computing Sciences [Assistant/Associate Professor, Computer Sciences \(three positions\)](#)**

NYIT seeks an Assistant/Associate Professor Computer Sciences (three positions - full-time, tenure track; Old Westbury and Manhattan campuses). Research areas of interest include cybersecurity, software engineering, and data mining.

Candidates must have a Ph.D. degree in computer science or related area, excellent communication skills, and a solid publication record. Commitment to teaching and research at the undergraduate and graduate levels is required. Candidates at the associate professor level must demonstrate an innovative research record and/or industrial experience and exceptional leadership and mentoring skills (evidence of sponsored research is also desired). For consideration, e-mail your curriculum vitae and cover letter to [Jobs.SOECS@nyit.edu](mailto:Jobs.SOECS@nyit.edu) . Please reference job code RA#445 in your subject line. NYIT is an AA/EEO institution.
