The IEEE-Eta Kappa Nu (IEEE-HKN) Board of Governors has conferred upon 27 student chapters the distinction of Outstanding Chapter for 2018. This represents the top 10 percent of all HKN chapters worldwide.

The Outstanding Chapter Award (OCA) recognizes excellence in IEEE-HKN chapters for their activities. The award is based on the content and description of chapter activities that are contained in the Annual Chapter Report, which summarizes the chapter’s activities from the previous academic year.

For the purposes of this award, emphasis is on service activities to the department, school, community and chapter. Equally important is promoting the goals of IEEE-HKN by inducting as many eligible undergraduate students, graduate students and faculty in the IEEE designated technical fields of interest as possible and by participating in IEEE-HKN student chapter projects.

The awards will be presented on Monday, 25 March 2019 during the annual conference of the Electrical and Computer Engineering Department Heads Association (ECEDHA). Each recipient chapter receives an engraved plaque.
